Girl Scouts of NE Kansas & NW Missouri is pleased to support the merger of Charter Communications, Time Warner Cable and Bright House Networks into New Charter. We believe the company would serve as a strategic community partner, dedicated to supporting organizations like ours that work to improve the lives of the consumers New Charter serves.

Our organization supports about 23,000 girls and 9,000 adult volunteers in a 47 county jurisdiction across Kansas and Missouri. We are proud to prepare girls for a life of service, and are devoted to inspiring interest in science, technology, business and the environment. Time Warner Cable has assisted with several of our STEM events in an effort to encourage more girls to consider careers in technology.

We appreciate Time Warner Cable's support and believe New Charter would similarly work to engage girls. The company would look to maintain and strength the relationships it inherits from the merging companies, and would seek to be a positive influence on the many communities it serves.

New Charter plans to be a community-oriented company committed to partnering with nonprofits for local improvement and growth. We are excited to work with the company and ask that you approve the merger.

Sincerely,

A handwritten signature in blue ink that reads "Kate Hood". To the right of the signature is the date "9/17/15".
